# OUR PLAY SCHOOL

“PLAYING, LEARNING AND ENJOYING  
EVERY MINUTE.”

This is our motto at Euro International School.

We believe in the true meaning of the word 'KINDERGARTEN' which means 'children's garden'. Here, we feel that children are the flowers and flowers need to be cultivated, watered and cared for. This is done collectively by the family, teachers and the school environment.

Step into our play school, and you will be amazed to see a world designed especially for your child. Toys and tambourines, books and blocks, puppets and paints, stories and games, sticks for counting, colors for painting, seeds for planting, computers for learning, sand boxes for exploring, outdoor play, circle-time activities. You name it and we have it.

We believe in the philosophy of whole child development and this is evident in the way we have structured our curriculum and classrooms. The learning environment at Euro International School includes and provides numerous experiences for creativity, observation, discovery, multi-sensorial experiences and social interaction. Here learning is fun with my-size games, toys and quality equipment. 'Hands on' learning experiments under the guidance of well-trained and caring staff make our pre-school a terrific place to be in.

# NFR STRUCTURE

## ACADEMIC BLOCKS

The school building consists of classrooms that are bright and airy. Each classroom is exciting, pulsating place to be in, spacious and well equipped with ergonomically designed chairs and tables.

## SMART CLASS

The innovative smart class knowledge center set up inside the school and connected to classrooms is equipped with state-of-the-art technology, dramatically enhancing instructor led teaching and learning in students, providing best-of- breed digital content mapped to the curriculum.

## INNOVATION LAB

Aims at experiential learning, a new generation science tool to enhance cognitive and practical learning to nurture new ideas and help to develop inquisitive perspective in students.

## LIBRARY

Books' being the heart of all learning, Euro International School provides an excellent support system by housing an extensive and exhaustive range of books, CD's and internet links to satisfy the urge to learn.

## AMENITIES

We pay utmost attention to security of the students. The school has tie up with hospitals for specialized care and emergencies. Water purifiers are installed for fresh and sweet mineral water. For attending to children's daily needs, we have care takers and attendants.

## ACADEMIC STAFF

Euro International School educators are the guardians of the future, and their compensation shall reflect the responsibility we vest in them. Our staff undergoes regular in service training and is kept up to date with the latest trends in teaching and childhood development.

## FOREIGN LANGUAGES

In a global world, knowledge of foreign language is a valuable asset that provides brighter career prospects. Also, learning newer languages open new doors to learning and broadens the vision and outlook to life. Keeping this in mind, EIS offers opportunities to its students to learn French and German as optional subjects.

Unlearn - Learn.....Create.....Celebrate

The school offers a vast range of co-curricular activities to the students, for the growth of their literary, physical, cultural and aesthetic abilities, leading to the flowering of their personality, sensitivity and creativity. It provides a platform to budding students to give vent to their co-curricular development.

## Beyond the Classroom Curriculums

### CODING

Coding Curriculum is committed to provide 21st century necessary skills to the students. Coding curriculum render programming skills to hone their computational thinking, creativity, problem solving abilities to outshine in the digital world giving a global exposure.

### ENTREPRENEURSHIP

Entrepreneurship Curriculum instigates entrepreneurial culture and skills blooming students creativity, technical and learning capability.

Entrepreneurship Curriculum inculcates self confidence, the ability to take initiatives, as well as willingness to take calculated risks and to collaborate. These prominent skills help students to select and shape their career as entrepreneur.

### HAPPINESS

Happiness Curriculum is a student centric education focusing on mindfulness & psychological health of a child by developing indispensable skills of Self Awareness Management, Relationship Skills / Social Skills, Responsible Decision Making to thrive & prosper in every aspect of life.

#### • Mindful Space

An approach to bring harmony with thoughts, feelings, sensations and awareness of surrounding environment to achieve a state of being conscious and relaxed. Mindful space is developed as a part of Happiness Curriculum emphasizing physical and mental well being of a child.

#### • Bliss Corner

A sacred space for the children where they can recompose and reconcile themselves and experience the bliss of nature.

# Euro Mission

To add value to humanity by **nurturing** the individuality celebrating the **uniqueness** and igniting the **passion** in young Euroites to live a purpose- driven life as conscious and evolved human beings.

## Vision

To be a Skill University committed to **preparing** personally **conscious**, intellectually **capable**, imaginatively **creative** and socially **transformative** **leaders**, contributing to service of society and mankind.
